## CELEBRATE!!!

We have so much to be thankful for. Even in the time of Covid-19, our HUB at North Forestville has been successful for our “Hubsters”.

We are celebrating a very successful 2021-2022 out of school time program year at North Forestville Elementary School. Through our virtual program, the HUB staff kept their commitment and worked to improve the education of all Hubsters each day. The academic and enrichment programs allowed our students to achieve higher grades in math and reading. Our STEAM programming enhanced the school day by bringing SCIENCE to life for all students at North Forestville. Students received KEEP UP STEAM KITS throughout the program year in an effort to support learning and personal development in and out of the classroom. Our HEALTH AND WELLNESS programming promoted strong minds and bodies to spread the message of the importance of good health. Together we were able to keep parents and students motivated as we adapted to life after a pandemic.

YEAH!! YEAH!! YEAH!! Good NEWS!!! We are excited about the return to in-person programming for the upcoming 2022-2023 school year! Our program strives for our Hubsters to ***“Grow Smarter...Grow Stronger...Grow Together”***. Applications will be available beginning the week of August 29, 2022. See your classroom teacher or the front office. Please be sure to complete and return early to secure your spot in the HUB.

## FAMILY ENGAGEMENT

For the second consecutive year, our PARENT PARTICIPATION rate skyrocketed! Thank you parents and caregivers for your interest in your Hubsters success and your interest to expand your knowledge in the areas of literacy, financial empowerment and health and wellness.

The COOKIES, MILK & A BOOK engagement series showcased local authors in our community. In March 2022 we hosted Vernitra Walton, author of the book “Mommy, Can You Buy Me?” This interactive evening workshop helped families

understand how to turn an idea into a revenue generating “thing”. As a result of the project, the HUB will add an entrepreneurship program component to the schedule for the 2022-2023 out of school time program.

## **A SALUTE TO PARENTS**

HUB parents have shown how much care they have for their children by making sure attendance in the HUB became part of the regular school day. Without the support of our parents, it would be difficult to get the kind of participation shown over the years. Many Hubsters have been with us the whole time. We happily watched their growth and development as they spent time every week in the Hub. It made us a HUB Family.

## **A SALUTE TO HUB STAFF**

One of the best things to happen for the HUB is to have some of the best teachers at North Forestville be willing to work – even more hours during our extended learning Hub programs. The Site Coordinators and Enrichment Specialists led their teams with professional skills – matched by the talented HUB Tutors who made learning fun and effective.

Our appreciation for their work would be hard to express here. It’s because of what these teams did that made academics, enrichment classes, reading, math, and science benefit Hub student learning. FUTURISTICS is indebted for the kind of willingness to face the odds and keep pushing forward.

## **A SALUTE TO HUB PARTNERS**

It takes a village... as the saying goes. Thank you to our valued community partners
